### **Quality and Value for Money**

At every step of the way we aim to offer you great value of Money. We have worked hard to get all of the ingredients that make up a great tour just right so that you have the best possible experience. All year round we check the quality of our suppliers, and we take a continuous improvement approach to all that we do, and constantly refine our itineraries and suppliers based on guest feedback.

### **Our guides & team**

From our tour guides to our drivers and operation staff, we believe a good team is the key to a great tour. We employ a mix of staff who all love to travel, and who have broad experience across all aspects of the travel industry. We know that your tour guide is the difference between a good and a great trip, and so we carefully select our guides for their passion and knowledge and continually provide them with professional development.

### **Our Experience**

We've been around since 1997 and so know the ropes and all the small things that help to make a tour great. When you book with us you have the peace of mind of knowing that we operate our own group tours – we hire our own guides and operate using our own vehicles and so we control our tour quality. We know every town we stop in like the back of our hand. This means we know the best places to stay, the best places to eat, and the best places to go in your free time.

### **Small Groups**

We believe that you can't really get to know a country if you are travelling in a really large group, and so our groups (with the exception of ANZAC Day and Greece tours) have a maximum size of 20 people. This gives you more flexibility when travelling, and more chances to learn more about local culture and traditions.
